

AUTO BODY EXCELLENCE

POWAY, CALIFORNIA

Project Value:

\$14,835

Estimated Annual Savings

\$5,325

SDG&E Business Energy
Solutions Program Rebate:

\$14,835

IMPROVEMENT DETAILS

- Installed 4th generation fluorescents (25W) with new electronic ballasts
- Replaced old incandescent and compact fluorescents with new LED models
- Installed new LED PAR30 flood lights in exterior fixtures

GOALS AND CHALLENGES

This is a busy working shop with varied workspaces requiring lighting for activities ranging from fine mechanical repairs to body work and painting.

SOLUTIONS AND RESULTS

Willdan installers were able to maneuver through the tight corners and busy work spaces to replace over 250 lights with more energy efficient models.

General Manager John Baratta had this to say:

Thank you for upgrading our (lights) to be more energy efficient...(the men did a great job working around us."
