Helping you find your green.SM

SCE INCENTIVES AND WILLDAN EXPERTISE

Willdan Energy Solutions administers several Southern California Edison Energy Efficiency Programs which provide full-service development and management of energy efficiency projects, **at no cost to you!**

Are you looking for ways to reduce your annual facility operations cost? Implementing energy efficiency projects can help you reduce energy use and save money.

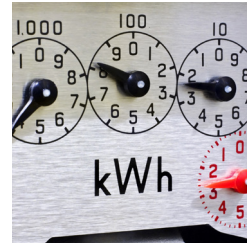

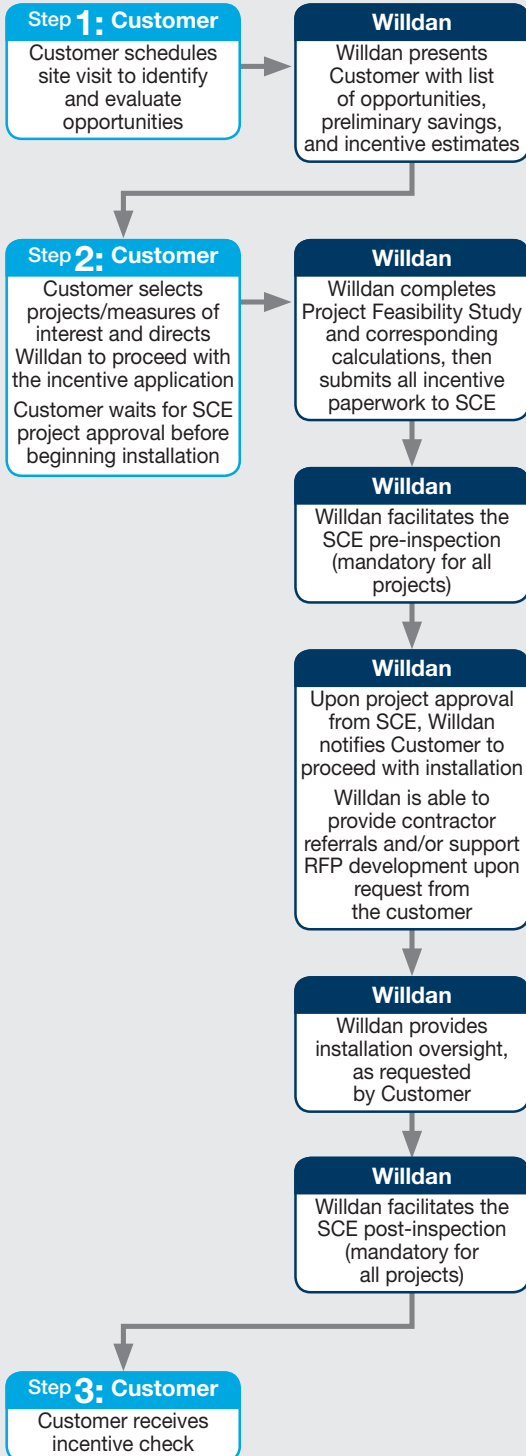

Contact us today for more information about how easy it is to participate and take advantage of financial incentives available from Southern California Edison (SCE).

Willdan provides you with the following:

- Comprehensive support to identify energy efficiency opportunities eligible for SCE incentives
- Complete application support to obtain maximum incentives from SCE for eligible projects
- Support with energy and cost savings calculations as well as calculating return on investment (ROI), using best-practice and utility-approved methodologies
- Assistance reviewing scopes of work (SOW) and request-for-proposal (RFP) for implementation of projects
- Contractor referrals and installation oversight support
- Validation of energy and cost savings upon project installation

See How It Works!

HOW IT WORKS

Based on the data gathered by Willdan engineers, Willdan creates a Project Feasibility Study identifying recommended energy efficiency measures and the corresponding estimated energy savings, available incentives, and simple paybacks. The table below shows an example of the type of information Willdan provides in order to help you make an informed decision on energy efficiency investments at your facility.

Annual Savings Summary	Savings	Reduction
Annual Electric Energy Savings	204,096 kWh	17%
Peak Electric Demand Savings	8.0 kW	2%
Annual Utility Cost Savings	\$32,655	21%

Investment Overview	
Total Project Costs	\$102,375
Total Incentive Available	\$16,927
Net Cost to Customer	\$85,448
Simple Payback Period with Incentive	2.6 years

RECEIVE YOUR INCENTIVE

Once energy efficiency measures are installed, Willdan completes all paperwork to help you receive your reserved incentive. Customized incentives are paid at a rate of \$0.08 per kWh saved, and \$150 per kW saved. Express incentives are paid at a fixed rate based on equipment size.

Incentives are available on a first-come, first-served basis, so act fast and contact us today for more details.

Energy Efficiency programs are funded by California utility ratepayers under the auspices of the California Public Utilities Commission and administered by Willdan through an SCE-awarded contract. Customers who participate in SCE's programs are NOT obligated to purchase any additional services offered by Willdan. Willdan offers free incentive support to all SCE-qualified customers. Incentives and savings will vary by customer, and Willdan makes no representation herein concerning actual or potential savings amounts. Funds are limited and are available on a first-come, first-served basis or until funds are depleted. Terms and conditions apply.
