

## **WES Presents \$14k in Energy Efficiency Incentives to American Academy of Ophthalmology**

*From left: Richard Ponder (WES Director of Programs) presenting an incentive check of \$14,269.49 to the American Academy of Ophthalmology's Director of Facilities Management, Lou Cuneo.*

Willdan Energy Solutions (WES), under the auspices of PG&E's Healthcare Energy Efficiency Program (HEEP), assisted the American Academy of Ophthalmology in achieving annual energy savings of 140,661 kWh and 16.06 kW. By installing VFDs on the supply and exhaust fans and CO sensors in the parking garage, the American Academy of Ophthalmology drastically reduced their energy usage of the parking garage fans by 96%! Working closely with WES, the American Academy of Ophthalmology is implementing additional energy efficiency projects.
