

# About Willdan

Willdan has had two primary objectives since our inception in 1964; ensuring the success of our clients and enhancing our surrounding communities. Working steadily toward these goals—primarily in engineering, planning, geotechnical, and building safety—we gained our notable reputation for technical excellence, cost effectiveness, and client responsiveness.

During the past decade, our nation has witnessed mounting fiscal and security concerns, as well as critical issues regarding both our man-made infrastructure and the natural environment. In response, Willdan has expanded our service offerings into several vital areas including:

- Financial and Economic Analysis
- Homeland Security
- Environmental Remediation
- Sustainability

We have crafted this set of integrated services so that, in the face of our evolving environment—whether economic, natural, or built—Willdan can continue to extend the reach and resources of our clients.

We would be delighted to assist you with any of your environmental planning needs. Please contact us at:

## Environmental Planning

### Willdan's Planning and Community Development Services

- Community Development
- Contract Staff Support
- *Environmental Planning*
- Urban Planning and Design

## Experience

Willdan Engineering has a prolific history of providing environmental planning services to public agencies throughout California.

**Willdan has prepared virtually every** type of environmental document pursuant to the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA), including the following:

- Environmental Impact Reports and Statements (EIR/EIS)
- Initial Studies
- Negative/Mitigated Negative Declarations
- Environmental Assessments and Findings of No Significant Impact (EA/FONSI)
- Exemptions/Exclusions

## Willdan has prepared these documents

for practically every type of project and program, including the following:

- Residential, commercial, industrial, and institutional development projects
- Land use plans and programs
- Utility infrastructure projects
- Highway, street, bridge, and roadway improvement projects
- Parks, trails, and recreational facilities

## Environmental Planning Services

- CEQA/NEPA Document Preparation
- Technical Studies/Resource Assessments
- Mitigation Monitoring
- Agency Coordination
- Third-Party Review
- Legal Challenge Assistance
- In-House Environmental Staff Assistance
- CEQA/NEPA Training
- Climate Action Plans
- AB 32/SB 375 Assistance
- LEED/Green Building Consulting

## Our Strengths

- **Experience**—Willdan has provided environmental planning services since 1972 and has prepared CEQA/NEPA documents for virtually all types of projects.
- **Project Managers**—Having served in multiple roles in the environmental planning field—including preparing, reviewing, and processing CEQA/NEPA documents—our project managers have an unmatched combination of technical abilities and problem-solving skills.
- **Resources and Flexibility**—Our corporate structure provides us with the resources of a large multidisciplinary firm, while maintaining the flexibility and personal relationships of a small company.
- **Quality of Work**—We have a proven track record of preparing legally defensible environmental documents, as borne out by our past work products that have withstood the test of the California courts.
- **Commitment to Client Satisfaction**—Our clients' satisfaction is demonstrated by the length of our working relationships as well as by the frequent requests we receive for repeat service.
