- Course Examinations
- Course Certificate of Completion

National Incident Management System, Incident Command System, and Emergency Operations Center Training Courses for Transportation Personnel

Homeland Security Presidential Directive 5 requires state, local jurisdictions, and public transportation agencies to be NIMS compliant. Willdan Homeland Solutions has developed National Incident Management System (NIMS) and Incident Command System (ICS) courses for transportation personnel. All courses are DHS certified. Eligible agencies may use DHS-TSGP funds for this approved training.

NIMS/ICS/EOC Training for Transportation Personnel

Willdan has had two primary objectives since our inception in 1964—ensuring the success of our clients and enhancing our surrounding communities. Working steadily toward these goals we gained a notable reputation for technical excellence, cost effectiveness, and client responsiveness in providing superior engineering and planning consulting services. In recent years Willdan has expanded our service offerings into several vital areas including financial and economic analysis, homeland security, environmental remediation, and sustainability. We have crafted this set of integrated services so that, in the face of our evolving environment—whether economic, natural, or built—Willdan can continue to extend the reach and resources of our clients.

Willdan Homeland Solutions

specializes in a broad range of public safety and homeland security consulting services that focus on integrating local resources and assets within state and federal systems. Staffed with highly experienced and credible law enforcement, fire, and related public safety professionals, our primary clients are cities, counties, and related municipal service agencies such as utility and water companies. Additionally, we provide a variety of services to port and transportation authorities as well as tribal governments, schools, and large business enterprises with a need for homeland security-related services.
