

*“Effective disaster preparedness, response, mitigation and recovery will be enhanced through the lessons learned.”*

### Training

- Basic and Advanced Emergency Response Preparedness Training
- NIMS/SEMS/ICS Training
- Emergency Operations Center Training
- Business and Industry Crisis Management Workshops

### Planning/Hazards Mitigation

- Design, Implement, Review and/or Evaluate Government and Business Emergency Operations and Hazards Mitigation Plans
  - Municipal Governments
  - Special Districts
  - School Districts
  - Private Business and Industry

### Exercises

- Weapons of Mass Destruction
- Large Event Planning (Superbowl, RNC, Concerts, etc.)
- Mass Casualty Transportation Disasters
- Terrorism Incident Response
- Natural Disaster Response and Recovery
- Civil Disorder Events

### Management Services and Investigations

- Administrative/Personnel Investigations
- Background Investigations
- Specialized Training

### Emergency Preparedness Courses

Intended primarily for elected officials, emergency planners, policy makers and executive level employees, this Willdan Homeland Solutions (WHS) presentation of “Why Plans Fail” is critical to the success of emergency response for both governments and businesses. Recent disasters including Hurricanes Katrina and Rita reaffirm the need for not only having an Emergency Operation Plan (EOP) but also to know the plan, train with the plan and know how to implement a disaster response.

This 2–4 hour eye-opening presentation highlights why even the best plans may fail unless the seven WHS key points for disaster response success are addressed.

From “Not Understanding the Scope of Emergency Management” (lesson #1) to having an “Emergency Operation Plan that is overly Complex” (lesson #4), many agencies simply wait until a disaster strikes and hope that the next level of government will come to their rescue. Effective disaster preparedness, response, mitigation and recovery will be enhanced through the lessons learned from “Why Plans Fail.”

This presentation can be tailored to include an Introduction to the National Response Framework (IS 800b) and the Executive NIMS/SEMS/ICS Course requirements.
