CITY ENGINEERING SERVICES

Staff Augmentation

We plan, secure funds, design, oversee construction, and maintain assets as if they are our own. Our staff holds senior management expertise in all areas. Willdan provides seamless support to your staff for any scope of services requested, from simple assignments to comprehensive management. We are efficient, friendly, and cost-effective.

Storm Water/ NPDES

Willdan has expertise in all aspects of hydrology, drainage, and flood control. We have designed virtually every type of water and wastewater system (e.g. collection systems, disposal facilities, distribution pipelines, production wells, pump stations, reservoirs, telemetry monitoring systems, and treatment facilities).

We provide hydrology reports, federal insurance studies (LOMR, CLOMR), scour and sediment transport analysis, and National Pollutant Discharge Elimination System (NPDES) services.

Funding Administration

Willdan is experienced with local, county, state, and federal funding program regulations. We prepare all necessary documentation for cities to successfully process project funds.
