

FIRE PLAN REVIEW & INSPECTION SERVICES

Dennis Grubb & Associates (DGA) is a premier Fire Plan Review & Inspection Services firm founded by Dennis Grubb in 2005 after his many years working in the Fire Safety industry. DGA began by providing contract Fire Plan Review services for one municipality and now serves 20+ clients throughout Southern California. DGA provides high quality service using precise and consistent communication to meet client needs.

DGA believes that success in delivering timely, efficient, and cost-effective results to clients is a team effort – made possible by the talent and dedication of experienced DGA staff.

DGA TEAM EXPERIENCE

At Dennis Grubb & Associates (DGA), we are proud of the team that assists our clients in Fire Plan Reviews and represents the very best our industry has to offer!

All of our dedicated DGA Fire Plan Reviewers specialize in FIRE SAFETY and have the following qualifications:

- 20+ years of direct fire prevention experience
- A college degree or higher
- Industry-recognized professional certifications
- Knowledge, skills, and expertise required to provide plan review and inspection services to municipalities

OUR EXCELLENCE IN FIRE PLAN REVIEW

The primary reason many choose DGA is our outstanding service and experience in Fire Plan Review. Although municipalities are similar in organization, each one is unique in its operation and requirements for fire ordinances and codes. At DGA, we understand the importance of local ordinances and continually update our database so we are able to provide jurisdictions with customized solutions.

Our combined experience in fire safety includes:

300+

Years of Direct Fire Life Safety Plan Review and Inspections

150,000+

Plans Reviewed (and Growing)

Projects and Clients

DGA has the experience to review a wide variety of plan types. Some of the complex projects reviewed by DGA personnel include:

Loma Linda University Medical Center

Great Wolf Lodge

Amazon Fulfillment Center

Toyota Arena

THE DGA PROCESS FOR SUCCESS

Through our experience providing contract services to government agencies in California, DGA follows these essential concepts to effectively fulfill city or county requirements:

- Timely, efficient, and cost-effective response to each agency's needs
- A reputation for quality performance and integrity to successfully administer all code aspects
- Establishment of and adherence to expectations and performance accountability
- Professional representation on behalf of the client agency to maintain good public relations
- Administrative and management ability of high caliber to identify issues and resolve them in a timely and sure manner

ASSISTING CITIES TO BUILD SAFER COMMUNITIES

The scope of regulations that affect the designing and construction of buildings has become increasingly diverse and complex with new legislation. It is essential to proper operations of fire departments that its consultants be aware of, and are well trained in, the interpretation and application of codes and their enforcement. DGA ensures that our associates are up-to-date with the latest codes that are essential for maintaining quality Fire Plan Review Services.

"DGA provides excellent customer service with fast turn-around times. I would recommend DGA to any jurisdiction looking for excellent fire plan review and inspection services."

— **Dave Martinez**, Building Official/Fire Marshal, City of Perris, CA

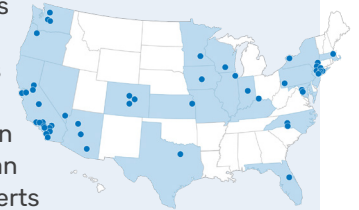

"Dennis and his entire staff have extraordinary communication skills and have always demonstrated professionalism and integrity in all our dealings."

— **Ray Bruno**, Fire Marshal, City of Colton, CA
