

Willdan Provides Scanning Services and Document Management

Willdan provides one-of-a-kind, streamlined scanning services and document management. Our team members have years of local government experience and understand your document needs and budget concerns.

Customized to Your Needs

We use your existing file architecture or will help you develop one. Unlike our competitors, we don't just scan and leave. We organize your files and data by relevancy and **your priorities** making it easier for your office to access documents and **increase your productivity.**

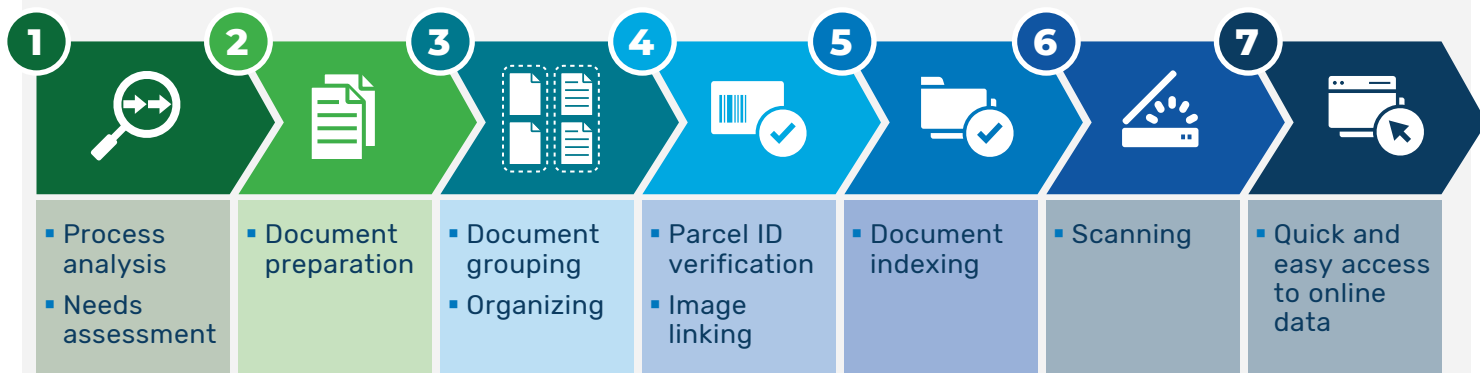

We prioritize your data accuracy and ensure that you can find your documents with **multiple queries** because your needs may differ from any other jurisdiction's.

Willdan gives you:

- **Quick access** to your data
- **Cost-effective** solution tailored to your needs
- **Document relationship expertise** based on our staff's prior experience in cities, counties, and enterprises
- **Easy online access** for public documents

Our Plan for Success

WE MAKE YOUR VISION A REALITY

BEFORE

AFTER
