BUILDING & SAFETY SERVICES

Plan Review and Inspection

Willdan's staff includes licensed engineers, architects, and ICC certified plans examiners and inspectors. Many of our staff come from management roles at public agencies. We maintain certifications and regularly attend trainings to stay current with industry technologies, codes, and standards. Willdan provides electronic plan reviews at no additional cost.

Contract Staffing

Since 1979, Willdan has provided building and safety services to over 300 agencies, including jurisdictions, tribal lands, cities, and counties. We have highly trained, experienced staff to complete and enhance your team. With over 75 licensed professional and technical personnel, we bring you dedicated, qualified staff.

Code Enforcement

Our expertise in code application and interpretation helps to guide and implement community-based neighborhood improvement programs. We offer:

- **Staffing** – Interim, part-time, and full-time staff with flexible hours. We can supplement a code group or fill an entire division.
- **Management** – Former Code Enforcement Directors, Code Compliance Managers, or Code Supervisors to oversee your code program.
- **Analysis** – Assessment, review, and recommendations for entire code programs or portions of code programs.
- **Development** – Creation of new code divisions or ongoing improvement of existing groups.

Specialized Services

Permit Counter Services – Customer support and complaint resolution, fee calculations, permit application review, building permit processing and issuance, document coordination for plan review and approval, and records maintenance.

- **CASp** – We provide Certified Access Specialists for Accessibility per the Americans Disabilities Act (ADA).
- **OSHPD III** – We offer OSHPD III plan review and inspection services for outpatient medical facilities.
- **Disaster Recovery** – Willdan is ready to assist with recovery from natural and man-made disasters. We have been the “go-to” firm to help local jurisdictions recover from firestorms, floods, earthquakes, and mudslides.

Expedited Services

- **Expedited Plan Review** – We can adjust our review schedule to meet your requirements.
- **Electronic Plan Review** – We were one of the first to offer electronic plan reviews – a paperless, fast solution without the need for added software or hardware. We continue to improve our process to save you time as well as shipping and printing costs, and to reduce foot traffic at jurisdiction building departments.
- **Short-Notice Interim Staffing** – Many of our skilled staff held municipal positions prior to joining Willdan. Their specialized experience will keep your agency running efficiently.

ABOUT WILLDAN

Willdan is a leading, nationwide provider of professional and consulting services.

Willdan has 50+ offices across 20+ states including key offices in CA, AZ, NV, UT, TX, FL, IN, IL, and NY (see map below). We have successfully worked on over 13,000 projects with municipalities nationwide.

Our team of certified plans examiners, inspectors, code enforcement officers, fire officials, professional engineers, and architects can support every stage of a project – from permitting to plan review and inspection.
