

Government & K-12 School Energy Efficiency Program

The Government & K-12 School Energy Efficiency Program offers incentives, financing, and technical services to help local governments improve their facilities at low or no cost.

Willdan is offering promotional incentives for a limited time. These higher promotional incentives will lower or eliminate your implementation cost.

BENEFITS:

- Lower energy bills and operational costs
- Improved facility aesthetics and performance
- Increased safety at parking structures and lighting levels in public areas
- Fewer maintenance and service calls
